
Automotive is the place to be!!!!

Granger's auto program allows students to discover the new technical advances found in today's cars. In addition, the auto programs allow students to work on their cars customizing them into the rides that will best show their style.

This course is a good prerequisite to an Engineering degree.

Granger Offers A Small Engines Class For 9th Graders

Granger High school is introducing a Small Engines Class starting the fall of 2013. The 9th grade class will experience an entrepreneurial-level auto program unparalleled to others. During the semester long course students will work with hand tools, various pieces of equipment, and single cylinder engines to begin their experiences in an automotive center. Here is a list of some activities done in the small engines program:

- 1) Develop safe practices in the shop
 - 2) Identify and use numerous hand tools
 - 3) Read micrometers and other measuring tools
 - 4) Build a small engine
 - 5) Understand two and four stroke engines
 - 6) Take some field trips to various shops
- Come join us, you won't be disappointed!!

Intro-Automotive (10,11,12)

Granger High offers a full year class in the fundamentals of automotive technology. Have you wondered about what makes a car work? Do you watch cable shows on making cars fast and hot looking? Do you have a car that you want to fix up into a sweet ride? Then our automotive program is designed just for you. Come and explore how today's technological wonders work and how you can become a part of a growing team that keeps them running. This class will instruct you on:

- 1) Maintenance of the vehicle (oil changes, ECT)
- 2) Tire replacement and service (rotation & balance)
- 3) Brakes (disc, drum, ABS)
- 4) Steering and suspension
- 5) Electrical
- 6) Drive trains
- 7) Engines

In addition, we will take field trips to various shops, races, and car shows for the total package. Come experience all the fun, You won't regret it!!!!

Maintenance & Light Repair (11,12)

Automotive II (Second year class)

(Prerequisite: Intro Auto or conference with Mr. Ballew)

This class is for those students interested in the automotive field for a career or those that want to learn more about their cars. We spend 85% of the year in the shop working various projects.
